What did you appreciate most about this class?

I think this was super helpful for understanding how to go through questions and what might be on an exam.

Dio was receptive to questions and always followed up when something wasn't solved during discussion

Is there anything you would like to see the TA do to improve his/her teaching?

I think everything was clear and great!

No, this was a great class and great discussions!

Maybe that's just with me, but skipping algebra steps during problem solving makes it hard to follow, so maybe include them just to be sure :)
